PREA Reports From

CHCC has an active contract with the Kentucky Department of Corrections (KDOC) for CHCC to provide at least sixty (60) substance abuse treatment beds for KDOC supervised clients.

There is a breakdown of PREA incidents that occurred at CHCC to examine and identify problem areas or areas lacking compliance. CHCC staff are always mindful of PREA, possible PREA issues and address potential problem areas before any problems arise. Every incident is formally reviewed by specialized staff who have been trained to cover PREA incidents.

An overall comparison of the incident-based data was collected and is as follows:

TOTAL ALLEGATIONS OF SEXUAL ABUSE

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025

Unsubstantiated			1	0	0	0	1	0	0	0

TOTAL ALLEGATIONS OF SEXUAL HARRASSMENT

	2013	2017	2018	2019	2020	2021	2022	2023	2024	2025

Unsubstantiated			7	0	0	0	0	0	0	0

When comparing data from the years listed above, it is evident there has been a significant amount of growth in the process made towards PREA compliance. The above statistical data reflects that allegations are taken seriously and investigated thoroughly. It also reflects the training of staff and client PREA education.
